No. 11 - July 2018

Now Enrolling for Summer 2018

Upcoming SAT Prep Boot Camp

It's not just about knowing what's on the test; it's about knowing how to take the test. Our experienced instructors will help you identify and excel at the most common type questions on the exam. They will share the proven strategies that will help you tackle the SAT like a pro. ***Lunch is provided at all SAT boot camps!*** To inquire more information call us today at 951-684-3811

August 11, 2018 | 10am-2pm
5750 Division Street #100 Riverside, CA

Summer Day Camp

This program provides a stimulating, safe environment for school-age children to accelerate their skills as learners with enrichment activities, games and supervised small groups. Instruction will include: Daily Activity, Reading and Writing Enrichment, Math Acceleration and STEAM Activities Class size is limited to allow for individual instruction. Designed by experienced and highly qualified instructors to match Common Core requirements. Camp will be held Monday-Friday 9:00am-12:00pm. One snack is included!

Summer Bridge

Reinforce your child's academic development while away from school. This program lets your child practice the skills from their current school year and get a head start on their next grade level. Daily activities include reading, writing, mathematics, and language arts with bonus activities in core subjects like geography, science, or history.

Family Game Night

Join us for an evening of family bingo! This is a great time to get to know the fellow students and the staff members who make LELC great!

What's included: Unlimited play, snacks & one raffle ticket included with each admission

July 12, 2018 | 5:30PM - 7:30PM
Cost: $10 per adult, $5 per kid, 4 and under FREE
5750 Division Street #100 Riverside, CA 92506

RSVP by July 9th and 1 student can participate for FREE with a paying parent

Registration is on a first come, first served basis. 20 spots are available. RSVP by calling 951-684-3811 or on our website.

Scratch Programming

This class will teach you how to program in Scratch, an easy to use visual programming language. More importantly, it will introduce you to the fundamental principles of computing and it will help you think like a software engineer. Students will learn basic computer programming fundamentals, while making their own interactive art, animated stories, or games using Scratch software. No previous programming skills are required, but students should be comfortable using a computer. Come exercise your creativity and have fun learning Scratch programming!

Summer STEM/STEAM

Our STEM/STEAM Program, instructed by our academic coaches, includes lessons that use hands-on activities focused on fun, real world experiences. Through hands-on activities and challenges, children will think, construct, experiment, discover and develop the desire to learn lots more! Every week, they'll learn something new and explore a different kind of fun!
